Studio Timer Watch

The new clock & timer ideal and elegant accessory in OnAir & Recorder Studio.

It is made up of two sections:

- *The right section displays the time (hour, minute, second) in the upper right part, and the date (day, month, year) in the lower right part.*
- *The left section is dedicated to timer, upper left, and to personalization with the image of the Radio Station's logo.*

View the timetable in a simple and easily readable way to support the conductors during live programs

The standard configuration is supplied with a LCD display with VESA support to wall mounting bracket.

Equipped with integrated linux s.o. powered computer, it can also be connected to an internet network, thus allowing a double use for the conductors, who, in addition to having the time under control, surfing the internet can have access to all information updated in real time.
