

Swiss precision for excellent audio quality

VOICE TECHNOLOGIES

VT720W Waterproof Sports Headworn

Hard workout? Not for your microphone.

The Voice Technologies VT720W is a noise-cancelling, waterproof headset microphone for sports and aerobics instructors as well as television field for wireless transmission and amplification voice.

The Bi-directional microphone head is waterproof and the condenser microphone capsule is a highly efficient noise canceller, which prevents feedback from loudspeakers or interference from crowd noise etc. The headband behind the neck is adjustable.

Colors: blue

Application area: Sports and aerobics instructors

The VT720W comes in an elegant case with the following accessories:

	WS720	Windscreen Colors: black
	STRAP	Colors: black
